

The B00M Innovation Showcase: Unleashing Creativity

The B00M Innovation Showcase is a unique event that brings together healthtech entrepreneurs from around the world to pitch their businesses to a panel of investors. This exclusive space is designed for investors and startups with the purpose of networking, pitching, exploring business opportunities, and showcasing the healthtech startup ecosystem, including selected startups from the DayOne Accelerator cohorts. The event will take place in the 'glass room' on the left-hand side of the entrance at Messe, Basel, Switzerland.

The pitching competition will feature about 12 startups presenting in front of renowned investors. Each startup will have 4 minutes to convince a selected audience of experts. The best startups will have the chance to win a prize and pitch in the B00M Summit plenary session. The final winner of the B00M Summit award will be presented at the closing ceremony of the conference.
